PROFESSIONAL EXPERIENCE

AGILE Infoways Pvt. Ltd

Software Developer

Ahmedabad

March 2023 – Present

- My role involves seeing the development and deployment of mobile app, as well as providing assistance to junior colleagues in troubleshooting.

Silversky Technology

React Native Developer

Ahmedabad

February 2021 – March 2023

- My role encompasses the development and deployment of small to mid-level mobile applications for both Android and iOS platforms.

PROJECTS

RRR (Rock Road Rabbi)

- "Rock Road Rabbi" is a tourist guide agency specializing in tour packages for Israel. The accompanying app offers premium subscriptions for access to its features. Users can explore their selected country's tourist destinations upon purchase or through provided credentials.
- My roles in the "Rock Road Rabbi" app include building the chat, resource, and subscription features, as well as mentoring the map module development.
- Android :- <https://play.google.com/store/apps/details?id=com.rrr.dev>
IOS :- <https://apps.apple.com/in/app/rock-road-rabbi/id6462980459>

Number Dekho

- "Number Dekho" is an app combining Uber-style services with instant food delivery like Zomato or Swiggy. I work on the vendor and customer app both, vendor app that enabling vendors to accept and manage service requests, payments and records where customer app that enabling a user to book and monitor and make payments their booked services.
- My roles in the "Number Dekho" apps include building Ui and Api integration along with socket implementation and deployed on store as well.
- Android :- <https://play.google.com/store/apps/details?id=com.numberdekho> (Customer App)
<https://play.google.com/store/apps/details?id=com.numberdekho.partner> (Vendor App)
IOS :- <https://apps.apple.com/in/app/numberdekho/id1630114113> (Customer App)
<https://apps.apple.com/in/app/numberdekho-partner/id6590617195> (Vendor App)

Dorm Shine

- "Dorm Shine" is a mobile app designed to help university students effortlessly manage their dorm life by providing cleaning, maintenance, and organization services. With features such as scheduled services based on their availability
- My roles in the "Dorm Shine" app include building the chat, resource, profile, booking, payment features and deployed on store as well.

Karate Kudos

- "Karate Kudos" is a mobile app designed for three user types: schools, teachers, and students. Schools oversee and approve requests, as well as monitor progress. Teachers approve and monitor students' completed courses, while students have access to explore all available courses.
- My roles in the app include building Ui and Api integration part.

QuickPOD

- "QuickPOD" is a mobile app designed for where users capture delivery proof through PDF images, streamlining documentation. With seamless API integration, images are swiftly uploaded to the server. Users effortlessly track upload status and benefit from automatic retries for failed uploads every 10 minutes, ensuring reliable data transmission.
- My roles in the app include building Ui and Api integration part.
